Day Care Camp : Concept of Making Khai from Rice : Products from Rice

Day Care Camp: Recognition of Human Body parts

**Sk. Imran
(MD)**

Sk Imran, a 4 year old little boy with multiple disabilities from Rasulpur village of Polba-Dadpur block lives with his parent & Grandparent. He has delayed development along with deafness. GBCD has identified him through an ICDS worker at 2022 when he was one and half years of old. Then, he could not seat properly always lying in bed and communicated mostly through gestures and sounds. His parents were worried about his future and unsure if he would ever be able to move or express himself independently.

GBCD has started intervening with him through Physiotherapy support along with arranging a special seat for him. To encounter his communication challenges GBCD arranged two hearing aids for him. After few days we have started Home based intervention, where our CBRWs work with him on **physical development, communication exercises, and daily living skills**. At first, even standing with support was difficult, but with regular practice and encouragement, he gradually developed strength and balance.

After months of perseverance, a remarkable milestone was achieved—**Imran took his first independent steps**. What once seemed impossible became a moment of celebration for his family and the entire team. Then we have developed a parallel bar and arranged modified shoe for his mobility correction.

Along with his physical progress, Imran also started developing his communication abilities. He began to **utter a few meaningful words**, such as “ma,” “water,” and “come,” allowing him to express his needs for the first time.

Today, Imran can **walk independently for short distances and communicate using a few words and gestures**. While his journey continues, these achievements have brought new confidence to him and renewed hope for his family.

April – June’ 26: Fourth Coming Events

- 1. Childhood Disability screening camp at sub health centers.**
- 2. ICDS & Health workers training**
- 3. Day Care Camp**
- 4. Cataract screening Camp at remote villages**
