GRAHAM BELL CENTRE FOR THE DEAF

A Rural NGO for the
Mainstreaming of
Children and Persons
with Disabilities

VISION

Our Vision is to create a non-threatening and non-discriminating environment within the society so that persons with disabilities can enjoy a life with equal opportunities and full participation with all other members of the society.

MISSION

Our Mission is to empower the persons with disabilities and promote economic self reliance among them to ensure an inclusive society.

VALUES

- Each and every person irrespective of their abilities can analyse their situation, plan for future and can have control over their lives.
- Empowering people is ensuring sustainable development. PwDs can participate fully in the change making process of self, family & community.

GOAL

Inclusion, Economic Independence & Empowerment of PwDs.

APPROACH

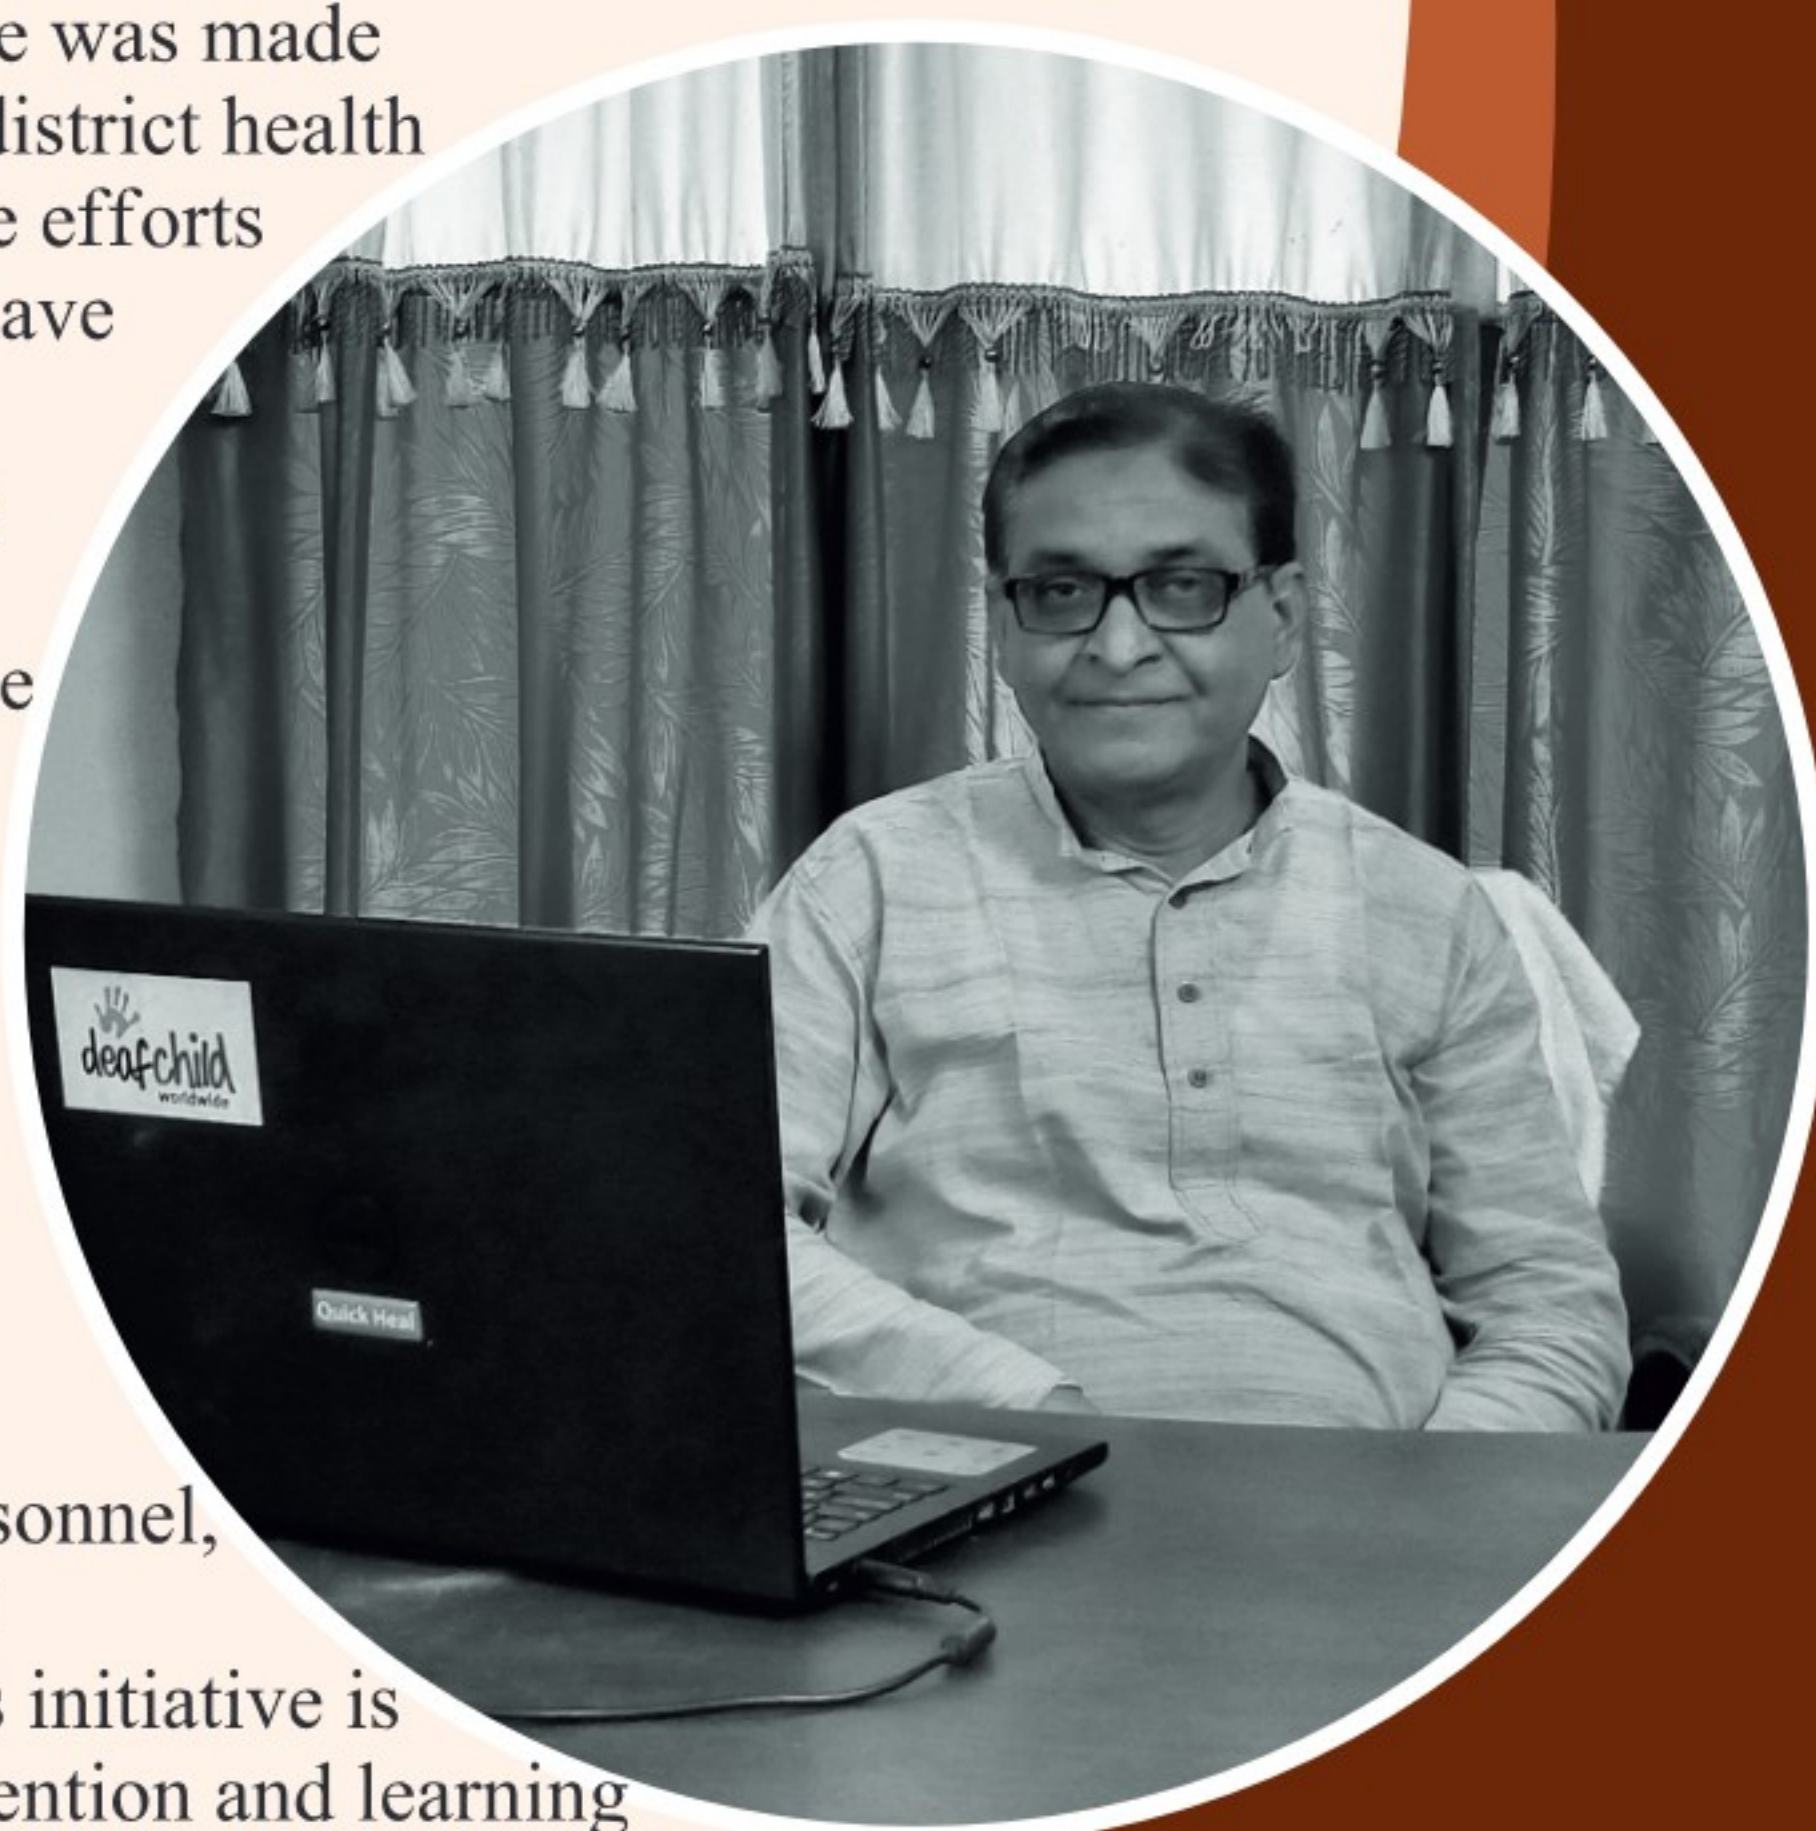

The basic components of our approach are : Participatory, Community Based and Right Based.

OBJECTIVES

- To build up capacity and confidence for children & persons with disabilities.
- To develop an appropriate rehabilitation service for CwDs & PwDs within their own community utilizing the local resources and initiatives to the maximum extent.
- To facilitate and mainstream PwDs as equals in development process, in mechanism of governance and the society at large.

Secretary Desk

It gives me immense satisfaction to reflect on another year of meaningful progress and strengthened commitment towards inclusion and empowerment of children and persons with disabilities. During the year, we successfully organized a large-scale disability screening camp across our intervention areas, through which more than 120 children were identified and arranged early intervention services. This initiative was made possible with the valuable permission and support of district health authorities, reinforcing the importance of collaborative efforts in early identification and intervention of CwDs. We have also taken a significant step forward in infrastructure development with the establishment of a new building dedicated to therapeutic services for children with Autism Spectrum Disorder (ASD). In addition, our eye care services have been strengthened, enabling us to expand support for cataract surgeries and restore vision among marginalized populations. Education continues to remain at the core of our mission. This year, 21 deaf students appeared for their board examinations, and we ensured interpreting support to facilitate an equitable examination environment. To enhance assistive services, we have strengthened our LTM unit with technical advancement and skilled personnel, ensuring better availability and supply of learning and therapeutic materials to children with disabilities. This initiative is expected to significantly improve the quality of intervention and learning outcomes. Furthermore, we extended our administrative and technical expertise to support other NGOs, creating a collaborative ecosystem that amplifies impact and promotes best practices in the disability sector. As we move forward, we remain committed to strengthening our interventions both quantitatively and qualitatively. To achieve this, we will continue organizing screening camps while continuously enhancing our skills with updated knowledge and information. We are also striving to establish a transparent, paperless monitoring system by maximizing the use of technology. I extend my heartfelt gratitude to our partners, stakeholders, staffs, well-wishers and community members for their unwavering support.

A photograph showing a close-up of an eye examination. A healthcare professional on the left is using a retinoscope to examine the eye of a woman on the right. The woman has a red bindi on her forehead and is wearing a red and blue patterned shawl. A hand is visible on her forehead, likely to stabilize her head. In the background, a poster of a man in a green uniform is visible on a yellow wall.
